

## ULTERIO / SMARTSCREEN / SIGNUM NON-METALIZED

Remove dust with regular gentle vacuuming with appropriate attachment, or dust with soft brush or damp cloth / sponge.

Spot clean with damp cloth using warm mild detergent, spot test in inconspicuous area first. Do not wet fabric completely as this may leave water marks.

Do not dry clean.

Leave blinds down for appropriate time after cleaning to fully dry.

## ZILARIO / SMARTSCREEN / SIGNUM METALIZED

Remove dust with regular gentle vacuuming with appropriate attachment, or dust with soft brush or damp cloth / sponge.

Spot clean with damp cloth using warm mild detergent, spot test in inconspicuous area first. Do not wet fabric completely as this may leave water marks and deteriorate the metalized backing.

Do not dry clean.

Leave blinds down for appropriate time after cleaning to fully dry.

## SMARTBLOCK / SUNBLOC / Q-BLOCK BLOCKOUT

Remove dust with regular gentle vacuuming with appropriate attachment, or dust with soft brush or damp cloth / sponge.

Spot clean with damp cloth using warm mild detergent, spot test in inconspicuous area first. Do not wet fabric completely as this may leave water marks.

Do not dry clean.

Leave blinds down for appropriate time after cleaning to fully dry.

## SPECIAL NOTES

Avoid spray window cleaners or any spray cleaners near all fabrics especially metalized backed fabric as this may discolour the fabric and or deteriorate the metalized backing.

Gentle use of baby wipes has been effective in removing some marks, test in inconspicuous area first, do not saturate fabric.

An Art Gum Eraser used lightly can be effective in removing some marks in Blockout fabrics.

For severe marks consult professional Ultrasonic Cleaning companies for their opinion.
